IN THE CLAIMS

Please substitute claims 1-20 with the following:

- 1-4. (Cancelled).
- 5. (Previously Presented) A vacuum dustpan for collecting debris from a floor surface comprising:
- (a) a housing having a debris collection chamber and defining an inlet having a top and opposite edges;
- (b) a vacuum means for generating a flow of air from said inlet to said collection chamber;
 - (c) said housing including an inlet surface configured to direct debris into said inlet; and
 - (d) a vacuum hose fitting by-passing the inlet.
- 6. (Previously Presented) A vacuum dustpan for collecting debris from a floor surface comprising:
- (a) a housing having a debris collection chamber and defining an inlet having a top and opposite edges;
- (b) a vacuum means for generating a flow of air from said inlet to said collection chamber; and
- (c) said housing including an inlet surface configured to direct debris into said inlet, wherein,

said flow of air is via a conduit extending from the inlet to an opening in the collection chamber and further including a flapper at said opening.

7. (Cancelled).

- 8. (Previously Presented) A vacuum dustpan for collecting debris from a floor surface comprising:
- (a) a housing having a debris collection chamber and defining an inlet having a top and opposite edges;
- (b) a vacuum means for generating a flow of air from said inlet to said collection chamber;
 - (c) said housing including an inlet surface configured to direct debris into said inlet; and
- (d) a selection switch for selectively directing air flow from the inlet on a vacuum hose fitting to the collection chamber.
- 9. (Previously Presented) The dustpan of claim 5 wherein said inlet is defined by said inlet surface and the floor surface.
- 10. (Previously Presented) The dustpan of claim 5 wherein said inlet surface includes projections which extend outwardly at the edges of said inlet.
- 11. (Previously Presented) The dustpan of claim 5 wherein said inlet surface projects from said top edge of said inlet.
- 12. (Previously Presented) The dustpan of claim 5 wherein said collection chamber comprises a removable bin.
- 13. (Previously Presented) The dustpan of claim 6 wherein said inlet is defined by said inlet surface and the floor surface.
 - 14. (Cancelled).
- 15. (Previously Presented) The dustpan of claim 6 wherein said inlet surface projects from said top edge of said inlet.

- 16. (Previously Presented) The dustpan of claim 6 wherein said collection chamber comprises a removable bin.
- 17. (Previously Presented) The dustpan of claim 8 wherein said inlet is defined by said inlet surface and the floor surface.
 - 18. (Cancelled).
- 19. (Previously Presented) The dustpan of claim 8 wherein said inlet surface projects from said top edge of said inlet.
- 20. (Previously Presented) The dustpan of claim 8 wherein said collection chamber comprises a removable bin.
